

OFFICIEL SORTSLISTE
The Official List of Varieties
Information om plantenyhedsbeskyttelse og sortslisteoptagelse

MEDDELELSER FRA SORTSAFPRØVNINGEN
The Danish Gazette for Plant Varieties

FORORD

Sortslisten omfatter de sorter, der efter afprøvning er optaget på sortsliste og/eller plantenyhedsbeskyttet pr. 15. marts 2020.

For at imødekomme behovet hos såvel danske som udenlandske læsere er der medtaget 2 indholdsfortegnelser, der adskiller sig ved, at fortægelsen over arterne er opstillet alfabetisk efter henholdsvis latinsk og dansk navn.

Sorterne er anført i alfabetisk rækkefølge efter sortsnavn.

For hver enkelt sort er angivet forkortelsen på sortsejeren og evt. dennes repræsentant, idet der ved sortsejeren her ligeledes forstås vedligeholder og/eller indehaver af plantenyhedsbeskyttelsen. De fuldstændige adresser for de respektive personer og firmaer er anført i den tilhørende adresseliste.

For sorter, der er Plantenyhedsbeskyttet, er angivet dato for registrering samt dato for registreringens ophør.
Bemærk venligst: Ved ophør af dansk beskyttelse kan sorten fortsat være omfattet af den europæiske plantenyhedsbeskyttelse. (Se www.cpvo.europa.eu.)

For sorter, der er optaget på sortsliste, er angivet dato for optagelse samt udløbsdato for sortslistegodkendelsen.

Forkortelse:

H = Hybrid

GM = Genetically modified variety

For sorter, der efter godkendelsesperiodens udløb kan markedsføres og kontrolleres i henhold til bestemmelserne i de respektive EU-direktiver, er dette angivet ved et + efter den anførte periode for sortslisteoptagelse. Samtidig er den angivne udløbsdato ændret således, at datoen for disse sorters vedkommende er sidste frist for kontrol, certificering og markedsføring.

Oplysninger om optagelse på og slettelse af sortslisten samt godkendelse til og ophør af plantenyhedsbeskyttelse gives løbende i de ordinære numre af "Meddelelser fra Sortsafprøvningen", der udkommer månedsvis. Heri gives ligeledes oplysninger om anmeldelser, afmeldinger, navneforslag m.v. samt informationer omkring sortsafprøvningen.

Aktuelle opdateringer af sorter på sortslisten og af sorter, der er plantenyhedsbeskyttet kan ses på www.tystofte.dk/sorter-status/

Preface

The official List of Varieties comprises the varieties which after testing are added to the Variety List and/or granted Plant Breeders' Rights as at March 15th, 2020.

In order to comply with the needs of Danish as well as of foreign readers there are 2 tables of content differing by the record of species being grouped alphabetically by their Latin and Danish names respectively.

The varieties are stated alphabetically after their variety names.

The abbreviation of the holder of the variety and his agent, if any, is indicated for each variety. By holder is meant maintainer and/or holder of Plant Breeders' Rights. The complete addresses of the respective persons or firms are in the address list.

The date of grants of Plant Breeders' Rights and the date of termination are stated for varieties being protected.

Please note: On termination of Danish Plant Variety Protection the variety can still be protected according to the European Plant Variety Protection regulation. (See www.cpvo.europa.eu.)

For varieties added to The Official List of Varieties are stated the date of addition and the date of expiry of the approval.

Abbreviation

H = Hybrid

GM = Genetically modified variety

Varieties are marked with + after the period stated for addition when they may be marketed and controlled after the expiry of the period of approval according to the decisions in the respective EU directives. At the same time the expiry date stated is modified so that the date, as these varieties are concerned, is the final date for control, certification and marketing.

Information about addition to and deletion from the Variety List and grants and expiry of grants of Plant Breeders' Rights is brought currently in the ordinary numbers of "Meddelelser fra Sortsafprøvningen", which are published monthly. Information concerning applications, withdrawals, proposed denominations etc. is also brought there together with information on the official variety testing.

A frequent update of the National List and of varieties granted Plant Varieties Protection can be seen on
