

MEDDELELSER FRA SORTSAFPRØVNINGEN

The Danish Gazette for Plant Varieties

Information om plantenyhedsbeskyttelse og sortslisteoptagelse

Årgang 29

April 2010

Særnummer

OFFICIEL SORTSLISTE

The Official List of Varieties

FORORD

Sortslisten omfatter de sorter, der efter afprøvning er optaget på sortsliste og/eller plantenyhedsbeskyttet pr. 01. april 2010.

For at imødekomme behovet hos såvel danske som udenlandske læsere er der medtaget 2 indholdsfortegnelser, der adskiller sig ved, at fortegnelsen over arterne er opstillet alfabetisk efter henholdsvis latinsk og dansk navn.

Sorterne er anført i alfabetisk rækkefølge efter sortsnavn, idet sortsnavnet er markeret med citationstegn, såfremt der til navnet er knyttet en tillægsbetegnelse.

For hver enkelt sort er angivet forkortelsen på sortsejeren og evt. dennes repræsentant, idet der ved sortsejer her ligeledes forstås vedligeholder og/eller indehaver af plantenyhedsbeskyttelsen. De fuldstændige adresser for de respektive personer og firmaer er anført i den tilhørende adresseliste.

For sorter, der er Plantenyhedsbeskyttet, er angivet dato for registrering samt dato for registreringens ophør. Der gøres dog opmærksom på, at ophørsdatoen for sorter, som er registreret inden den 1. januar 1988, ikke i alle tilfælde behøver at være den endelige ophørsdato, da der er mulighed for ansøgning om forlængelse af registreringen indtil i alt 25 år. (For sorter af kartoffel er registrering maksimalt 30 år)
Bemærk venligst: Ved ophør af dansk beskyttelse kan sorten fortsat være omfattet af den europæiske plantenyhedsbeskyttelse. (Se www.cpvo.eu.int.)

For sorter, der er optaget på sortsliste, er angivet dato for optagelse samt udløbsdato for sortslistegodkendelsen.

For eksportsorter er der kun anført det år, i hvilket sorten er optaget på sortsliste, idet sortens forbliven på listen er afhængig af optagelsen i det eller de lande, hvor sorten er godkendt.

For sorter, der efter godkendelsesperiodens udløb kan markedsføres og kontrolleres i henhold til bestemmelserne i de respektive EU-direktiver, er dette angivet ved et + efter den anførte periode for sortslisteoptagelse. Samtidig er den angivne udløbsdato ændret således, at datoen for disse sorters vedkommende er sidste frist for kontrol, certificering og markedsføring.

Sidst i sortslisten er medtaget en oversættelse af overskrifterne, herunder også de overskrifter der inden for visse arter angiver en typeopdeling eller et bestemt anvendelsesområde for de enkelte sorter.

Oplysninger om optagelse på og slettelse af sortslisten samt godkendelse til og ophør af plantenyhedsbeskyttelse gives løbende i de ordinære numre af "Meddelelser fra Sortsafprøvningen", der udkommer månedvis. Heri gives ligeledes oplysninger om anmeldelser, afmeldinger, navneforslag m.v. samt informationer omkring sortsafprøvningen.

Aktuelle opdateringer af sorter på sortslisten og af sorter, der er plantenyhedsbeskyttet kan ses på www.planteinfo.dk/sdb

Preface

The official List of Varieties comprises the varieties which after testing are added to the Variety List and/or granted Plant Breeders' Rights as at 01. April 2010.

In order to comply with the needs of Danish as well as of foreign readers there are 2 tables of content differing by the record of species being grouped alphabetically by their Latin and Danish names respectively.

The varieties are stated alphabetically after their variety names, the variety denomination being marked with quotation marks in case a supplementary designation is attached to the name.

The abbreviation of the holder of the variety and his agent, if any, is indicated for each variety. By holder is meant maintainer and/or holder of Plant Breeders' Rights. The complete addresses of the respective persons or firms are in the address list.

The date of grants of Plant Breeders' Rights and the date of termination are stated for varieties being protected. However, please note that the date of termination for varieties protected before January 1, 1988 will not necessarily be the final date, the holder having the possibility of applying for prolongation up to 25 years in all. (For varieties of Potato the maximum period of protection is 30 years)

Please note: On termination of Danish Plant Variety Protection the variety can still be protected according to the European Plant Variety Protection regulation. (See www.cpvo.eu.int.)

For varieties added to The Official List of Varieties are stated the date of addition and the date of expiry of the approval.

As for export varieties only the year in which the variety was added to the list is stated, as the remaining of the variety on the list depends on the addition to the list in the country or in the countries in which the variety is approved.

Varieties are marked with + after the period stated for addition when they may be marketed and controlled after the expiry of the period of approval according to the decisions in the respective EU directives. At the same time the expiry date stated is modified so that the date, as these varieties are concerned, is the final date for control, certification and marketing.

At the end of the Variety List there is a translation of the headings including the headings indicating a grouping in types within certain species or indicating a special use of the individual varieties.

Information about addition to and deletion from the Variety List and grants and expiry of grants of Plant Breeders' Rights is brought currently in the ordinary numbers of "Meddelelser fra Sortsafprøvningen", which are published monthly. Information concerning applications, withdrawals, proposed denominations ect. is also brought there together with information on the official variety testing.

A frequent update of the National List and of varieties granted Plant Varieties Protection can be seen on www.planteinfo.dk/sdb.
