

Technical questionnaire

white lupin, blue lupin, yellow lupin

CPVO/TQ-066

Mandatory fields or sections are marked with an asterisk ()*

01 . Botanical taxon: name of the genus, species or sub-species to which the variety belongs:

Lupinus albus L.

Lupinus angustifolius L.

Lupinus luteus L.

Other species (please specify)

02 . Application code:

For office use only

03 . Breeder's reference

Breeder's Ref.

04 . Information on the breeding scheme and propagation of the variety ***04 . 01 . Breeding scheme ****(this question could be confidential)*

seedling	Indicate denomination and species of the parent varieties
mutation	Indicate denomination and species of the parent varieties
discovery	Indicate where, when and how the variety has been developed
other	Please specify

04 . 02 . Method of propagation of the variety *

cuttings	
in vitro propagation	
seed	
other	Please specify

04 . 03 . In the case of seed propagated varieties, method of production:

self-pollination	
cross pollination	Please provide details
hybrid	Please provide details

05 . Characteristics of the variety to be indicated

(the number in brackets refers to the corresponding characteristic in the UPOV Technical Guidelines, please mark the state of expression which best corresponds).

05 . 01 . Grain: bitter principle (1) *

1 - absent	Nelly (Lal), Bordako (Lan), Borselfa (Llu)
9 - present	Feli (Lal), Azuro (Lan), Trebisa (Llu)

05 . 02 . Stem: anthocyanin coloration prior to bud emergence (4) *

1 - absent or very weak	Minori (Lal), Bolivio (Lan)
2 - very weak to weak	
3 - weak	Juno (Llu)
4 - weak to medium	
5 - medium	Nelly (Lal), Boltensia (Lan)
6 - medium to strong	
7 - strong	Sonet (Lan)
8 - strong to very strong	
9 - very strong	

05 . 03 . Time of flowering (5) *

Quote mean date of flowering of variety as well as of two well-known comparable varieties *

05 . 04 . Flower: colour of wing (9) *

1 - white	Minori (Lla)
2 - bluish white	Nelly (Lal)
3 - blue	Azuro (Lan)
4 - violet	Bordako (Lan)
5 - pink	Rubine (Lan)
6 - light yellow	Teo (Llu)
7 - dark yellow	Juno (Llu)

05 . 05 . Plant: growth type (11) *

1 - determinate	Borweta (Lan), Borselva (Llu)
2 - indeterminate	Nelly (Lal), Azuro (Lan), Juno (Llu)

06 . Similar varieties and differences from these varieties

Please note that information on similar varieties may help to identify comparable varieties and can avoid an additional period of testing.

06 . 01 . Are there any similar varieties known? *

Yes

No

06 . 02 . Similar varieties and differences from these varieties: *

Denomination(s) of variety(ies) similar to your candidate variety	Characteristic(s) in which your candidate variety differs from the similar variety(ies)	Describe the expression of the characteristic(s) for the similar variety(ies)	Describe the expression of the characteristic(s) for your candidate variety

07 . Additional information which may help to distinguish the variety *

07 . 01 . Resistance to pests and diseases *

Yes, specify

No

07 . 02 . In addition to the information provided in sections 05 and 06, are there any additional characteristics which may help to distinguish the variety? *

Yes, specify

No

07 . 03 . Are there any special conditions for growing the variety or conducting the examination? *

Yes, specify

No

07 . 04 . Other information *

Yes, specify

No

08 . GMO-information

08 . 01 . GMO-information required *

The variety represents a Genetically Modified Organism within the meaning of Article 2(2) of Council Directive EC/2001/18 of 12/03/2001.

Yes

If yes, please attach in point 08.02 a copy of the written attestation of the responsible authorities stating that a technical examination of the variety under Articles 55 and 56 of the Basic Regulation does not pose risks to the environment according to the norms of the above-mentioned Directive.

No

08 . 02 . In case of GMO, joint attestation of the responsible authorities stating that a technical examination of the variety under Articles 55 and 56 of the Basic Regulation does not pose risks to the environment according to the norms of the above-mentioned Directive.

09 . Information on plant material to be examined

The expression of a characteristic or several characteristics of a variety may be affected by factors, such as pests and disease, chemical treatment (e.g. growth retardants or pesticides), effects of tissue culture, different rootstocks, scions taken from different growth phases of a tree, etc. Consequently the plant material to be examined should not have undergone any treatment which would affect the expression of the characteristics of the variety, unless the competent authorities allow or request such treatment. If the plant material has undergone such treatment, full details of the treatment must be given. In this respect, please indicate below, to the best of your knowledge, if the plant material to be examined has been subjected to:

09 . 01 . Micro-organisms (e.g. virus, bacteria, phytoplasma) *

Yes, specify

No

09 . 02 . Chemical treatment (e.g. growth retardant or pesticide) *

Yes, specify

No

09 . 03 . Tissue culture *

Yes, specify

No

09 . 04 . Other factors *

Yes, specify

No

10 . Possible place of the technical examination

In case the CPVO needs to arrange a technical examination for your candidate variety, there might be more than one examination office entrusted by the CPVO to carry it out. In this case, the Office will decide on the place of the technical examination but you might wish to express a preference in respect of an examination office. The list of entrusted examination offices for that species can be found in the S2/S3 in which you will also find further information about submission of plant material and deadlines for numerous species:CPVO (plantvarieties.eu)

10 . 01 . Country where the examination could take place

Country

DECLARATIONS *

I/we hereby declare that to the best of my/our knowledge the information given in this form is complete and correct.
