

Technical questionnaire

potato

CPVO/TQ-023/3

Mandatory fields or sections are marked with an asterisk ()*

01 . Botanical taxon: name of the genus, species or sub-species to which the variety belongs:

Solanum tuberosum L.

Other species (please specify)

02 . Application code:

For office use only

03 . Breeder's reference

Breeder's Ref.

04 . Information on the breeding scheme and propagation of the variety ***04 . 01 . Breeding scheme ****(this question could be confidential)*

seedling	Indicate parent varieties
mutation	Indicate parent variety
discovery	Indicate where, when and how the variety has been developed
other	Please specify

04 . 02 . Method of propagation of the variety ***04 . 02.01 . Vegetative propagation ***

Tuber
 other (state method)

04 . 02.02 . Other information on the method of propagating the variety

Please provide details

05 . Characteristics of the variety to be indicated *

(the number in brackets refers to the corresponding characteristic in the CPVO Technical Protocol; please mark the state of expression which best corresponds)

05 . 01 . Lightsprout: proportion of blue in anthocyanin coloration at base (4) (G) *

1 - absent or low	Arielle, Desiree, Solist, Victoria
2 - medium	Abbot, Pamina
3 - high	Agria, Avano

05 . 02 . Flower corolla: intensity of anthocyanin coloration on inner side (27) (G) *

1 - absent or very weak	Solist
2 - very weak to weak	
3 - weak	Laura, Pirol, Secura
4 - weak to medium	
5 - medium	Quadriga, Osprey
6 - medium to strong	
7 - strong	Courage, Valfi
8 - strong to very strong	
9 - very strong	Ramona

05 . 03 . Flower corolla: proportion of blue in anthocyanin coloration on inner side (28) *

1 - absent or low	Laura, Osprey
2 - medium	Courage, Secrua
3 - high	Pirol, Quadriga, Valfi

05 . 04 . Plant: time of maturity (31) *

1 - very early	Christa, Solist
2 - very early to early	
3 - early	Cilena, Courage
4 - early to medium	
5 - medium	Laura, Nicola
6 - medium to late	
7 - late	Avano
8 - late to very late	
9 - very late	Producent, Kuras

05 . 05 . Tuber: colour of skin (34) *

1 - light beige	Nadine
2 - yellow	Solist
3 - reddish brown	SF Balu
4 - light red	Rosalind
5 - medium red	Laura
6 - dark red	Romanze
7 - red parti-coloured	Cara
8 - blue	Valfi
9 - blue parti-coloured	Catriona, Kestrel

06 . Similar varieties and differences from these varieties

Please note that information on similar varieties may help to identify comparable varieties and can avoid an additional period of testing.

06 . 01 . Are there any similar varieties known? *

Yes

No

06 . 02 . Similar varieties and differences from these varieties: *

Denomination of similar variety	Characteristic in which the similar variety is different	State of expression of similar variety	State of expression of candidate variety

07 . Additional information which may help to distinguish the variety ***07 . 01 . Resistance to pests and diseases ***

Yes, specify

No

07 . 02 . In addition to the information provided in sections 05 and 06, are there any additional characteristics which may help to distinguish the variety? *

Yes, specify

No

07 . 03 . Are there any special conditions for growing the variety or conducting the examination? *

Yes, specify

No

07 . 04 . Other information *

Yes, specify

No

08 . GMO-information *

08 . 01 . GMO-information required *

The variety represents a Genetically Modified Organism within the meaning of Article 2(2) of Council Directive EC/2001/18 of 12/03/2001.

Yes

If yes, please attach in point 08.02 a copy of the written attestation of the responsible authorities stating that a technical examination of the variety under Articles 55 and 56 of the Basic Regulation does not pose risks to the environment according to the norms of the above-mentioned Directive.

No

08 . 02 . In case of GMO, joint attestation of the responsible authorities stating that a technical examination of the variety under Articles 55 and 56 of the Basic Regulation does not pose risks to the environment according to the norms of the above-mentioned Directive.

09 . Information on plant material to be examined

The expression of a characteristic or several characteristics of a variety may be affected by factors, such as pests and disease, chemical treatment (e.g. growth retardants or pesticides), effects of tissue culture, different rootstocks, scions taken from different growth phases of a tree, etc. Consequently the plant material to be examined should not have undergone any treatment which would affect the expression of the characteristics of the variety, unless the competent authorities allow or request such treatment. If the plant material has undergone such treatment, full details of the treatment must be given. In this respect, please indicate below, to the best of your knowledge, if the plant material to be examined has been subjected to:

09 . 01 . Micro-organisms (e.g. virus, bacteria, phytoplasma) *

Yes, specify

No

09 . 02 . Chemical treatment (e.g. growth retardant or pesticide) *

Yes, specify

No

09 . 03 . Tissue culture *

Yes, specify

No

09 . 04 . Other factors *

Yes, specify

No

10 . Possible place of the technical examination

In case the CPVO needs to arrange a technical examination for your candidate variety, there might be more than one examination office entrusted by the CPVO to carry it out. In this case, the Office will decide on the place of the technical examination but you might wish to express a preference in respect of an examination office. The list of entrusted examination offices for that species can be found in the S2/S3 in which you will also find further information about submission of plant material and deadlines for numerous species:CPVO (plantvarieties.eu)

10 . 01 . Country where the examination could take place

Country

DECLARATIONS *

I/we hereby declare that to the best of my/our knowledge the information given in this form is complete and correct.
